

Signing Schedule			
TSRGD Ref.	Size (mm)	Sign Diagram	Notes
Diag.612 - (S3-2-7) No right turn for vehicular traffic	450		- Rear of sign to be black RAL9005 - Sign to be located below Diag.602 as per TSRGD guidance
Diag.878 - (S11-2-53) Area in which cameras are used for enforcement	350x300 (X Height 50)		- Rear of sign to be black RAL9005
Diag.602 - (S9-2-2) Give Way	600		- Existing sign to be reduced from 750mm to 600mm to ensure minimum 2.1m clearance is provided
Diag.622.2 - (S3-2-14) End of prohibition of goods vehicle	450		- Existing signs to be relocated

**Notes**

- All signs to be mounted with a minimum clearance of 2.1m from the footway level, in line with TSRGD guidance.
- All signs/posts are to provide sufficient clearance from the carriageway when mounted on existing infrastructure, in line with TSRGD guidance (450mm)
- Existing road markings have been provided for guidance.
- A review of some secondary Diag.612 and Diag.878 signs will take place once the scheme has bedded in.
